Trade-marks Journal

Vol. 63 No. 3204

General Information

The *Trade-marks Journal* is published every week in compliance with Rule 15 of the *Trade-marks Regulations*. The Registrar of Trade-marks cannot guarantee the accuracy of this publication, nor assume any responsibility for errors or omissions or the consequence of these. All mail relating to trademarks should be addressed to the Registrar of Trade-marks, 50 Victoria Street, Gatineau, Quebec, Canada, K1A 0C9.

Electronic *Trade-marks Journal*

The *Trade-marks Journal* is available in electronic form on the CIPO web site (http://cipo.gc.ca). The *Journal* is available in PDF format and can be downloaded free of charge, viewed and printed with Adobe Acrobat Reader. The electronic form of the *Trade-marks Journal* is the official version.

The *Journal* is also available in a printable HTML format as an alternate official version, and contains a search function to narrow and customize the *Journal* content to user defined areas of interest.

Official Languages

The *Journal* is available in English and in French. The application details are displayed based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the Journal are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the Journal have been translated. Any registration resulting from the application will be restricted to these goods or services described therein.

Filing Dates

The filing date of each trademark application advertised in the *Trade-marks Journal*, including those to extend the statement of goods or services of an existing registration, is shown next to the application number in the sequence of Year, Month and Day.

Nice Classification

The *Journal* includes reference to the Nice classification when the goods or services of an application have been grouped and classed by the applicant in accordance with the current version and edition of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Trade-marks Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Trade-marks Journal* may file a statement of opposition with the Registrar of Trade-marks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

electric and electronic apparatus and instruments, namely, test instruments and equipment, namely , communication link testers for testing communication links, telecommunication line integrity testing apparatus, apparatus for processing, generating and evaluating of telecommunication signals and navigation signals, and apparatus for processing, generating and evaluating of telecommunication-relevant and navigation-relevant data, namely, computer hardware, computers, data processors, namely, computers, microprocessors, word processors, video processors, voice processors, computer screens, computer printers and circuit boards; scientific, geodetic and optical apparatus and instruments, namely, geodetic survey units, namely, lasers, geodetic survey units, namely radar, digital cameras, video projectors, telemetry units, namely, telecommunications transmitters, telemetry apparatus, namely, radio transmitters, radio receivers, radar and lasers not for medical use; apparatus and instruments, and components for measuring, checking, testing and monitoring of positions and telecommunication-related data, namely, radios, oscillators, duplexers, transponders, modulators, demodulators, frequency generators, multiplexers, demultiplexers, and waveguides; apparatus and instruments, and components for examining and characterizing of two-dimensional and three-dimensional space segments, namely, related apparatus and instruments for space and earth observation, namely, satellites, telemetry units, telemetry apparatus, namely, radio transmitters, radio receivers, radar, lasers, lidars, optical systems comprising telescopes, and laser-based systems comprising lasers; vehicle tracking devices, namely, vehicle locating and tracking system comprised of an antenna and radio transmitter to be placed in a vehicle and firmly attached to a vehicle; personnel tracking devices, namely, GPS/GSM tracking devices to be worn by a person, namely, portable devices, namely, mobile phones; electronic panic devices, namely, personal security alarms; electronic personal security alarms.

(2) Telecommunications equipment namely telephone and telegraphic apparatus and material of all kinds, namely telephones, mobile telephones, telephone components, office message recording/ retrieval exchanges, multiplexers; telecommunication equipment namely, optical fiber couplers, optical signal transmitters, optical fiber repeaters and hubs, optical fiber network interface units, optical communication systems comprising fiber optic cables, fiber optic transmitters, hubs and network interface units; electronic components, namely rectifiers, capacitors, hybrid circuits, integrated circuits, microcircuits, semiconductors; telecommunication equipment namely radio base stations, digital speech encryption units; radar; telecommunication equipment namely cooling systems for telephone exchanges.

(3) Printed circuit board substrates and printed circuit board.

(4) Robots, namely industrial robots and laboratory robots; industrial robotic handling machines for loading and unloading industrial machinery and semiconductors.

(5) Integrated circuit memories such as roms, proms, and eproms; integrated circuit cards; integrated circuits; large scale integrated circuits; pre-recorded or downloadable computer programs for the design and testing of integrated circuits, large scale integrated circuits, and electronic circuits; computer processing unit; electronic circuits; semi-conductor devices, namely chips, diodes, integrated circuits, transistors; integrated circuits namely computer processing unit electronic circuits; semi-conductor memory; microprocessors; microcontrolers; microcomputers; computer programs for designing, testing and evaluating microcomputers circuits for testing/ evaluating of microcomputers, microcontrolers, microprocessers and semi-conductor integrated circuits; semiconductor integrated circuits; semi-conductor sensor; semi-conductor commutators; downloadable software for electronic publishing of semi-conductors; silicon wafer for semi-conductors.

(6) Cinematographic equipment and instruments namely, image special effects generator, digital mixer, digital switcher and titler for cinematographic films, audio apparatus, namely, microphones, cinematographic audio recorders, audio mixers, audio speakers, audio receivers, movie projectors, photographic and slide projectors; apparatus for recording, transmission and reproduction of sound and images, namely, video monitors, televisions and television receivers.

(7) Radiocommunication transmitting and receiving sets for vehicles; marine radio communication transmitting and receiving sets; direction finders, radar and beacon instruments, namely aerial surveillance radar, omni directional beacons, tactical navigation aids, namely, telemeters.

(8) Applied electronic machines and apparatus, namely, betatrons, hydrophones, seismic wave survey equipment, echo sounders, echo rangers, computers, microscopes, cyclotrons, geiger counters, transistors, thermistors, electrical materials, namely, insulators, insulating papers, cloths, paints, tapes, rubber, brushes, wires, magnetic cores, metronomes and parts and fittings therefore.

(9) Cards namely, blank smart cards, blank integrated circuit cards for recording, transmitting, and reproducing sound and images in mobile telephone services, blank electronic chip cards, LAN computer cards for connecting portable computer devices to computer networks, magnetically encoded debit and credit cards; plastic cards with a memory and magnetic strip namely, encoded credit cards, encoded debit cards, encoded hotel room key cards, encoded phone cards.

(10) Computer software that automates the processing of unstructured, semi-structured and structured information and data, namely, computer software used for management of information stored in databases, e-mail archives, document management systems, intranet sites, internet sites and contained in telephone and voicemail messages, and for identifying concepts and topics contained in such information; computer software that analyzes concepts contained in information stored in databases, e-mail archives, document management systems, intranet sites, Internet sites and contained in telephone and voicemail messages and for creating summaries of that information based on the concepts identified; computer software for creating and inserting metatags into documents and information stored in databases, e-mail archives, document management systems, multimedia files, intranet sites, Internet sites, telephone or voicemail messages to facilitate operation of search engine software; computer software for creating and inserting hyperlinks connecting conceptually and topically related documents and information stored in databases, e-mail archives, document management systems, multimedia files, intranet sites, Internet sites, telephone and voicemail messages; computer database software for creating, maintaining, and updating databases containing information stored in e-mail archives, document management systems, multimedia files, intranet sites, Internet sites, telephone and voicemail messages; computer database searching software that allows users to search and retrieve information stored in databases, e-mail archives, document management systems, intranet sites, Internet sites, telephone and voicemail messages; computer software for analyzing and generating summaries of information stored in databases, e-mail archives,document management systems, intranet sites, Internet sites and contained in telephone and voicemail messages; computer software that creates, updates and maintains profiles of users of local,wide-area, and global computer networks and delivers information from databases, e-mail archives, document management systems, intranet sites, Internet sites and contained in telephone and voicemail messages based on those profiles; computer software that creates, updates and maintains customized portal sites for users of local, world-area and global computer networks; computer software for customer relationship management, namely, for receiving customer inquiries via telephone and e-mail, automatically identifying concepts and topics contained in those inquires, automatically generating a response to those inquiries, and forwarding those inquiries to an appropriate technical advisor; speech recognition computer software; text recognition computer software; image recognition computer software; computer operating system software; computer software for providing on-line and off-line navigation of the global computer information network and for running web-site searches; computer software for creating, maintaining and updating software agents that automatically and systematically conduct searches of database, intranet and the Internet; computer search engine software, computer software used for conducting standard text searches; computer software used to create and manage Internet and intranet portal sites, computer software for management and processing of electronic commerce transactions; mobile telephones; personal digital assistants, namely hand-held computing organizers, portable information terminals, portable digital communication devices; computer software for e-mail management; computer database software for creating, maintaining, and updating databases containing information stored in email archives, document management systems, multimedia files, intranet sites, Internet sites, telephone or voicemail messages; computer software used to retrieve information about current events, business, and sports from databases, the internet, intranets and other computer networks and transmitting the same to users via computer data networks; personal digital assistants; computer software for email management; software for analyzing data contained in email archives, document management systems, intranet sites, Internet sites, telephone and voicemail messages; computer software for capturing, monitoring, compiling, analysing, modelling and forecasting consumer trends.

(11) Apparatus and instruments for conducting, switching, transforming, accumulating, regulating and controlling of electrical current, namely, inverters, electric accumulators, transformers, circuits, generators, batteries namely, automotive batteries, camera batteries, cellular phone batteries, general purpose batteries, hearing aid batteries, watch batteries, power storage batteries, wires, microcircuits, circuit boards, battery chargers namely, chargers for mobile phones; electronic switches.

(12) Electric, electronic and electromechanical apparatus and instruments and devices namely, electric, electronic and electromechanical apparatus and devices to be assembled into apparatus for locomotion by land, water and air and vehicles namely, climate control systems consisting of digital thermostats, air conditioning, heating, ventilation and drying control devices namely, electrical control systems for heating and air conditioning systems, dishwashers, furnaces; electric, electronic and electromechanical devices and parts and components thereof, namely, devices, parts and components of industrial manufacturing machines, building machines, household apparatus, heating and air conditioning apparatus and systems, vehicles, medical and laboratory apparatus and systems, namely, sensors, namely, pressure sensors, pressure sensors equipped with ceramic and silicon and metal diaphragm, position sensors, contactless and wireless sensors namely, radio frequency (RF) sensors and radio frequency identification (RFID) sensors, electronic devices for surveillance and monitoring, namely, closed-circuit cameras and television monitors, electronic circuits and sensors for monitoring fluid levels, electronic circuits and sensors for video injection systems, electronic circuits and temperature sensors switches for controlling temperature, climate control systems consisting of digital thermostats, air conditioning, heating, ventilation and drying control devices, namely, electrical control systems for heating and air conditioning systems, electronic circuits and sensors for controlling actuators and motors, electronic circuits and sensors for controlling levers, electronic sensors for determining the temperature of wires and films, ceramic sensors, silicon sensors, level sensors, flux and flow sensors, force sensors, temperature sensors, magnetic sensors, electric resistance sensors, electrical resistors, thick-film resistors, potentiometers, computer joysticks, power resistors, electric control circuits, electric motor control circuits, speed control equipment, namely, electronic speed controllers, position control equipment namely, altimeters, antennas, namely, car antennas, cell phone antennas, parabolic antennas, radio antennas, television antennas, satellite navigators, radars, physical transducers; measurement circuits; electronic components, namely, safety relay modules, safety monitoring modules and fail safe delay timer used to evaluate connected safety components and reliably tum off hazardous machine functions in the event of an unsafe condition; connectors, namely, audio/video cable connectors, cable connectors, electrical connectors for junction boxes, electrical connectors for power converters, electrical power connectors, electronic connectors for video recorders, radio frequency connectors, electronic alarm circuits, electronic signal control circuits, electronic circuits, hybrid electronic circuits, integrated circuits, microprocessors, thin-film and thick-film electronic circuits and electrical continuity sensors, electronic measure circuits, blank smart cards, smart cards readers; electronic devices for surveillance and monitoring, namely, closed-circuit cameras and television monitors, electronic circuits and sensors for monitoring fluid levers, electronic circuits and sensors for video injection systems, electronic circuits and temperature sensor switches for controlling temperature, electronic circuits and sensors for controlling actuators and motors, electronic circuits and sensors for controlling levers, electronic sensors for determining the temperature of wires and films, antennas, namely, car antennas, cell phone antennas, parabolic antennas, radio antennas, television antennas, satellite navigators, radars, electrical resistors, motors namely, electric vehicle motors, motor control circuits, fuel control circuits, exhaust control circuits, alarm circuits, signaling circuits, electronic circuits, hybrid circuits, integrated circuits, microprocessors, thin-film and thick-film circuits, measurement circuits; connectors, namely, audio/video cable connectors, cable connectors, electrical connectors for

junction boxes, electrical connectors for power converters, electrical power connectors, electronic connectors for video recorders, radio frequency connectors; batteries namely, automotive batteries, camera batteries, cellular phone batteries, general purpose batteries, hearing aid batteries, watch batteries; battery electronic circuits and sensors, airbag electronic circuits and sensors, seat electronic circuits and sensors, tank electronic circuits and sensors, fluid meter electronic circuits and sensors, injection electronic circuits and sensors, temperature control electronic circuits and sensors, electronic circuits and sensors for actuators and motor control, electronic circuits and sensors for levers and pedals and steering and control devices for vehicles; electronic switches; battery electronic circuits and sensors, airbag electronic circuits and sensors, seat electronic circuits and sensors, tank electronic circuits and sensors, fluid meter electronic circuits and sensors , injection electronic circuits and sensors, temperature control electronic circuits and sensors, electronic circuits and sensors for actuators and motor control, electronic circuits and sensors for levers and pedals and steering and control devices for vehicles; USB cables.

(13) Telephone apparatus, namely, telephones, mobile phones, telephone answering machines, telephone cables and telephone receivers; video frequency apparatus, namely, video cameras; parts and accessories for electric communication apparatus and instruments, namely, coils, loudspeakers, microphones.

(14) Chemical intermediates, compounds and preparations used in the production of pharmaceuticals, medicines and veterinary preparations; chemicals used in research for medical and veterinary purposes; diagnostic preparations for medical laboratory use; diagnostic reagents for medical laboratory use; screening preparations for medical laboratory use; screening reagents for medical laboratory use; adhesives for medical use; catalysts namely, catalysts for use in ammonia and methanol plants, synthesis gas catalysts for use in ammonia manufacture and plant operation, chemical catalysts for use in hydrogenation and purification applications for use in chemical plant operations, chemical catalysts for use in the production of oxo-alcohols and fatty alcohols, chemical catalysts for use in synthesis gas and olefin purification, chemical catalysts for use in the purification of liquids, gases, industrial oils and petrochemicals, polymerisation catalysts, catalysts for use in the operation of oleochemical plants, chemical catalysts for use in methanol synthesis, chemical catalysts for use in destroying hazardous waste material, chemical catalysts for use in removing odours from industrial effluent, chemical catalysts for use in the manufacture of esters, chemical catalysts for use as adhesion promoters for ink manufacturers, chemical catalysts for use in synthesis gas manufacture and in the operation of synthesis gas plants, chemical refinery catalysts for the removal of sulphur and sulphur containing compounds; detergents for industrial use; oils for preservation of food; additives for petrol, gasoline and motor fuels; colour brightening chemicals for industrial use; decolourants; oil and water purifying chemicals; textile waterproofing chemicals; chemicals for the use in the manufacture of hair spray and other cosmetic products; chemicals and chemical preparations for use in the manufacture of fragrances, fragrance ingredients and fragrance compounds; chemical fragrances and perfumes for impregnation; oils for use in the preservation of foods; unprocessed artificial resins and plastics; tempering and soldering compositions; adhesives namely, border, overlap and repair adhesives for wallpaper and wall coverings; wood hardening chemicals; adhesives to prevent loosening of wheel nuts; non-chemical additives for industrial oils, greases, lubricants; paraffin wax.

(15) Computer programs and software for use in the paint industry to assist in the selection of paint for the protection and maintenance of interior and exterior surfaces and to assist in the design and decoration of interior and exterior of buildings; computer programs and software for use in the specialist chemical, paint, food and beverages, chemical catalyst, starch and chemical polymer industries to control the production of products and to provide information regarding products.

SERVICES

(1) Scientific, technological, research and design services in the field of monitoring and control of telecommunication satellites and signals and navigation satellites and signals, namely, research in the field of monitoring and controlling satellites to improve performance and to improve the services provided with the satellites, and development of new design of satellites and their parts; scientific and technological services and research and design, namely, scientific and technological research, design and development, namely, providing developing, engineering, investigating, consulting, optimizing, calibrating, testing, and quality improvement services for antennas, aerials, transponders, receivers, satellites, wireless networks, wired networks, cable networks, mobile phones, computers, cellular networks, wide area networks; scientific research, engineering and technological services, namely, measuring, characterizing, verifying, examining, scanning and sampling electromagnetic fields for engineering and technical purposes; industrial analysis in the fields of telecommunication and navigation, namely, satellite telecommunication and satellite navigation; scientific and technological services and research and design, namely, development and creation of computer programs for data processing, analyzing of data in the field of the natural environment namely, monitoring and observing of water quality of the sea, lakes, and rivers, of air and water pollution, and of toxicity levels of chemicals in the air through the remote monitoring of fence lines, and chemical leak detection, detection of chemical agents and toxic industrial compounds in air, data conversion of computer programs and data, not physical conversion; creation of computer database programs; computer programming, namely, preparation and modification of access to data and information in Internet.

(2) Installation, repair and maintenance of telecommunication equipment, namely, telephone and telegraphic equipment and computers.

(3) Custom manufacturing services in the field of electromechanical actuators, pumps, valves, switches, and mass-flow sensors for use in aerospace, aviation, nautical, maritime, medical, health care, automotive, retail, communications, telecommunications, telecommunications networking, computer, multimedia devices, audio and video equipment, electronic data storage, clean technology and renewable energy, mass transit and transportation, oil and gas, industrial original equipment manufacturing (OEM), multimedia original equipment manufacturing (OEM) and national defense; custom manufacturing service in the field of solar equipment, namely, inverters, combiners and power products, wind turbines, fuel cell battery systems, LED lighting and smart meters; custom manufacturing of global positioning system (GPS) equipment.

(4) Product research, development and design of new products for others; product improvement by way of research, development and design of new products for others; engineering, design, research and development of new products for others; engineering services for the aerospace, aviation, nautical, maritime, medical, automotive, communications, telecommunications, computer, electronic data storage, and national defense industries; technical support services, namely, troubleshooting in the nature of diagnosing computer hardware and software; engineering, namely, product design, hardware engineering, mechanical engineering, electrical engineering, circuit design and Value Analysis Value Engineering (VA VE); engineering, design, research and development in the fields of electronic, electro-mechanical, micro-electronic, optical, laser, sensor, radio frequency-based, and microwave products; test engineering for electronic and electro-mechanical products; engineering services for the healthcare, financial, retail, telecommunications networking, clean technology and renewable energy, mass transit and transportation, oil and gas, industrial original equipment manufacturing (OEM), and multimedia equipment original equipment manufacturing (OEM) industries; product research, development, design, and engineering of electronic and electro-mechanical product manufacturing equipment; product research, development, design, and engineering of medical devices; product research, development, design, and engineering of solar equipment, wind turbines, fuel cell battery systems, LED lighting, and smart meters; product research, development, design, and engineering of global positioning system (GPS) equipment.

(5) Installation, maintenance and repair of computer hardware; semiconductor and integrated circuit foundry services, namely the custom manufacture of electrical and electronic products and semiconductor devices to the order and specification of others and test manufacturing of semiconductor devices to the order and specification of others.

(6) Entertainment services, namely, providing a database featuring information on a variety of topics of interest to the general public, such as news, sports and music, via telecommunications equipment, namely voice and data transmitters and receivers, cellular telephones.

(7) Educational services, namely, providing classes, seminars, conferences, and workshops in the fields of computers; education in the field of microcomputers; education in the field of computer programming; arranging and conducting of seminars in the operation, use and management of computer hardware and software systems; computer software design services; computer system design services; computer systems analysis services; consultancy in the field of computer hardware; creating and maintaining web sites for others; hosting websites; installation of computer software; maintenance of computer software; computer data recovery services; updating of computer software.

(8) Consultancy in the field of design of semi-conductor devices; research, design and engineering of semi-conductor devices; providing information about design of semi-conductor devices; consultancy in the field of design of semi-conductor chip; research, design and engineering of semi-conductor chip; providing information about design of semi-conductor chip; research, design and engineering of integrated circuits; consultancy in the field of design of integrated circuits; providing information about design of integrated circuits; research, design and engineering of microcomputers; consultancy in the field of design of microcomputers; providing information about design of microcomputers; research, design and engineering of integrated circuit cards; consultancy in the field of design of integrated circuit cards; providing information about design of integrated circuit cards; research, design and engineering of semi-conductor memory; consultancy in the field of design of semi-conductor memory; providing information about design of semi-conductor memory; research, design and engineering of circuit boards; consultancy in the field of design of circuit boards; providing information about design of circuit boards; research, design and engineering of semi-conductor manufacturing equipment; consultancy in the field of design of semi-conductor manufacturing equipment; providing information about design of semi-conductor manufacturing; research, design and engineering of semi-conductor testing equipment; consultancy in the field of design of semi-conductor testing equipment; providing information about design of semi-conductor testing equipment; research, development, design, programming and maintenance of computers software for others; survey, advice, consultation, and providing information in the field of research, developing, designing, programming and maintenance of computers software.

(9) Computer services, namely, providing search engines for obtaining data on a global computer network; leasing and rental of computer software; computer services, namely, providing temporary use of on-line non-downloadable computer software for automating information management, namely, for analyzing information stored in databases, email archives, document management systems, intranet sites, Internet sites and contained in telephone and voicemail messages, and identifying concepts and topics contained in such information; computer services, namely, providing temporary use of on-line non-downloadable computer software used to create and insert metatags into documents and information stored in databases, e-mail archives, document management systems, multimedia files, intranet sites, Internet sites, telephone and voicemail messages to facilitate operation of search engine software; computer services, namely, providing temporary use of on-line non-downloadable computer software for creating and inserting hyperlink connecting conceptually and topically related documents and information stored in database, e-mail archives, document management systems, multimedia files, intranet sites, Internet sites, telephone and voicemail messages; computer services, namely, providing temporary use of on-line non-downloadable computer database searching software that allows users to search and retrieve information stored in databases, e-mail archives, document management systems, multimedia files, intranet sites, Internet sites, telephone and voicemail messages; computer services, namely, providing temporary use of online non-downloadable computer software for analyzing and generating summaries of information stored in databases, e-mail archives, document management systems, intranet sites, Internet sites and contained in telephone and voicemail messages; computer services, namely, providing temporary use of on-line non-downloadable computer software that creates, updates and maintains profiles of users of local, wide-area, and global computer networks and delivers information from databases, email archives, document management systems, intranet sites, Internet sites and contained in telephone and voicemail messages based on those profiles; computer services, namely, providing temporary use of on-line non-downloadable computer software that creates, updates and maintains customized portal sites for users of local, wide-area and global computer networks; computer services, namely, providing temporary use of on-line non-downloadable computer software for customer relationship

management, namely, for receiving customer inquiries via telephone and e-mail, automatically identifying concepts and topics contained in those inquiries, automatically generating a response to those inquiries, and forwarding those inquiries to an appropriate technical advisor; computer services, namely, providing temporary use of on-line non-downloadable computer software for human resources management, namely, for receiving employee inquiries via telephone and email, automatically identifying concepts and topics contained in those inquiries, and automatically generating a response to those inquiries; computer services, namely, providing temporary use of online non-downloadable speech recognition computer software; computer services, namely, providing temporary use of on-line non-downloadable text recognition computer software; computer services, namely, providing temporary use of on-line non-downloadable image recognition computer software; computer services, namely, providing temporary use of on-line non-downloadable computer operating system software; computer services, namely, providing temporary use of on-line non-downloadable computer software for providing online navigation of the global computer information network and for running web-site searches; computer services, namely, providing temporary use of on-line non-downloadable computer software for creating, maintaining and updating software agents that automatically and systematically conduct searches of databases, intranet and the Internet; computer services, namely, providing temporary use of on-line non-downloadable computer search engine software; computer services, namely, providing temporary use of on-line non-downloadable computer software used for conducting standard text searches; computer services, namely, providing temporary use of on-line non-downloadable computer programs that allows other computer programs to adapt their behavior according to users ' instructions or responses by personalizing and profiling for individual end-users the retrieval, management, and delivery of data in knowledge management, news media, customer relationship management, and e-commerce computer software applications; computer services, namely providing temporary use of on-line non-downloadable computer software used to create and manage Internet and intranet portal sites; computer services, namely, providing temporary use of on-line non-downloadable computer software for management and processing of electronic commerce transactions; computer services, namely, providing temporary use of on-line non-downloadable computer software used to retrieve information about current events, business, and sports from databases, Internet, intranet and other computer networks and transmitting the same via computer data networks, mobile telephones, and personal digital assistants; computer services, namely, providing temporary use of on-line non-downloadable computer software for email management; consultation services for others in the field of computer hardware, computer network, computer systems and computer software; computer software design for others; maintenance of computer software and programs for others; installation of computer software and programs for others; computer software design services and consulting services in the fields of knowledge management, new media, and e-commerce computer software applications that provide information via the global computer information network, mobile telephones, and personal digital assistants; computer services, namely, providing specific information as requested by customers via the Internet in the nature of concept matching, namely customized searching for data on computer networks, intranet and the Internet and identifying conceptually related documents available on computer networks, intranet and the Intranet; computer services namely, designing, updating, maintaining and providing for others temporary use of on-line non-downloadable software used to create, update and maintain computer software agents that conduct user-specified text searches on an automatic and systematic basis; computer services, namely, designing, maintaining and updating for others computer software used to navigate the Internet and conduct searches on website; computer services, namely, website design for others; database searching services for others; providing design, development, customization, implementation and maintenance services in respect of knowledge management, new media, e-commerce, on-line publishing, e-mail routing, business intelligence, enterprise information portals, customer relationship and document management software; computer services, namely, search engine services; computer services, namely, providing temporary use on on-line non-downloadable computer software for creating and inserting hyperlink connecting conceptually and topically related documents and information stored in database, e-mail archives, document management systems, multimedia files, intranet sites, Internet sites, telephone and voice mail messages; computer services, namely, providing temporary use of on-line non-downloadable computer software for use in data analysis, namely, software that retrieves information about users of computer networks and information management systems, identifies interests and specialized skills of those users based on that information, generating and delivering reports to those users, and identifying and presenting information available on computer networks to users based on their identified interests and skills; computer software security services.

(10) Scientific research, technological services, namely, engineering services namely, mechanical engineering, engineering services for telecommunications and data networking in the field of control modules, pressure sensors and hybrid circuits and chip on board (COB) technologies and of automotive design; engineering of new products for others namely, electronic circuits and sensors used in the industry of household appliances, electronic sensors and circuits used in the industry of industrial and civil vehicles, electronic circuits and sensors used in the industrial manufacturing processed and electronic sensors and circuits used in the building industry; research, design and engineering services in the field of control modules namely, electric motor control modules, sensors control modules, heater control modules, actuators control modules, transmission control modules, speed control modules, body systems control modules, pressure sensors and hybrid circuits and chip on board (COB) technologies and of automotive design; design and development of computer hardware and software; engineering services namely, technical consulting in the field of control modules namely, electric motor control modules, sensors control modules, heater control modules, actuators control modules, transmission control modules, speed control modules, body systems control modules, pressure, sensors and hybrid circuits and chip on board (COB) technologies; scientific research, technological services, namely, engineering namely, mechanical and electrical and electronic engineering; engineering services for electronics, telecommunications and data networking; research, design and engineering services in the field of control modules namely, electric motor control modules, sensors control modules, heater control modules, actuators control modules, transmission control modules, speed control modules, body systems control modules, pressure sensors and hybrid circuits and chip on board (COB) technologies, namely, machinery, electric, electronic and electromechanical apparatus, instruments and devices for home, industry, construction, laboratory, medical, biomedical and therapeutic use; design and engineering of new products for others, namely, vehicles, devices and instruments for land, air and water vehicles; design and engineering of new products for others, namely, electric motor control modules, pressure sensors, hybrid circuits and chip on board (COB), electric and electronic circuits, electric and electronic sensors, measuring circuits and sensors, pressure sensors, pressure controllers, electric heaters, resistors, joysticks, potentiometers, electric and electronic actuators, electric valves, micro actuators, pumps, namely, gas pumps, rotary pumps, sump pumps, micro-pumps, electric motors, micro motors, motor controllers, sensors controllers, hybrid circuits, integrated circuits, electronic circuits and sensors, electronic sensors and circuits for laboratories and for household use; research, design and engineering of new products for others, namely, electronic circuits and sensors used in the industry of household appliances, electronic sensors and circuits used in the industry of industrial and civil vehicles, electronic circuits and sensors used in the industrial manufacturing processes and electronic sensors and circuits used in the building industry
.

(11) Research, and development for others of chemicals, bacteriological, agriculture and horticultural chemicals, intermediates, and compounds; chemical engineering services; compiling, maintaining and providing access to databases of chemicals, chemical compounds, chemical products, chemical reagents, chemical intermediates, medicines; research and design in the fields of pharmaceuticals, chemicals, chemical compounds, chemical products, chemical reagents, chemical intermediates, biotechnology compounds, DNA and RNA fragments, proteins and enzymes used in the production of pharmaceutical and agrochemical compounds, veterinary products, sanitary products, and agrochemical compounds and products; research and design, development and production of chemicals, chemical compounds, chemical products, chemical reagents, chemical intermediates, biotechnology compounds, DNA and RNA fragments, proteins and enzymes used in the production of pharmaceutical and agrochemical compounds and products ; designing and developing processes for the production of pharmaceutical and agricultural compounds, chemicals, chemical compounds, chemical products, chemical reagents, chemical intermediates, biotechnology compounds, DNA and RNA fragments; research and design in the fields of the production of pharmaceuticals, medicines and agrochemicals; designing and organizing pharmaceutical and agrochemical research; design and planning of industrial plants and processes used in the production of pharmaceutical and agricultural compounds, chemicals, chemical compounds, chemical products, chemical reagents, chemical intermediates, biotechnology compounds, DNA and RNA fragments; design, maintenance and operation of computer programs, namely, the design of chemicals, pharmaceuticals, medicines and agrochemical products.

GOODS

(1) Cosmetics; fragrances.

(2) Casual clothing; eyeglasses, sunglasses; leather goods, namely, leather eyeglass cases, vanity cases.

(3) Nail polish.

(4) Hair care products, namely glitter for hair.

(5) Clothing in the nature of t-shirts, shorts, panties, jackets, bras, underwear, sweatshirts, sweatpants.

(6) Cosmetic bags sold empty; cosmetic cases sold empty.

(7) Athletic clothing, children's clothing and dress clothing; athletic footwear, casual footwear; jewelry; watches; leather goods, namely, leather cases for computers, leather handbags, leather drawstring pouches, traveling bags; purses.

SERVICES

On-line retail store services featuring clothing, apparel, and fashion accessories; retail apparel stores; retail clothing boutiques; retail clothing stores; retail stores featuring clothing, apparel, and fashion accessories; retail clothing and apparel stores; wholesale distributorships featuring clothing and apparel.

(1) Retail services and wholesale services for electrical machinery and equipment, namely, capacitors, electric power generators for indoor use, electric power generators for emergency use, mobile electric power generators, solar cells, photovoltaic solar modules for production of electricity , solar batteries, solar panels for production of electricity, electrical conductors, electrical connection boxes, electrical connectors, distribution blocks for electrical power, electrical transformers, remote electrical igniters, electrical limiters, electrical cables, electrical signal transceivers, electric buzzers, electric circuit closers, electric control panels, electric discharge tubes, electric door openers and closers, electric door bells, signal transmitters, signal receivers, signal encoders and signal decoders, electric regulating machines, electric resistors, PCB relays, plugin relays, solid-state relays, power relays, safety relays, and general purpose relays, electric transformers, electric opening and closing system for car window, electric power generators, electrical control panels, electric switches, electrical terminals, electric resistances, electrical inverters, electric transformers, electric locks, electric theft prevention installations, electric monitoring machines, electrical power supply and, electric control machines for energy management, electrical accumulators; electrical condensers, remote electrical igniters, electric discharge tubes, electric power distribution machines, electrical circuit cards, electrical plugs, electrical sockets, electrical contacts, electrical junctions, electric remote control machines of industrial operations, electric resistors, electric acupuncture instruments, electric encephalographs, electrical inductors, electrical plugs, electrical cables, electric power steering controls, electrical signal transceivers, electric muscle and nerve stimulators and electric pulse generators, electric wheel chairs, electric motors and inverters, electric and electronic controls for regulating the flow and speed of vehicular traffic, electric steam inhalers, electric massagers, electric pulse massagers , electrical control panels (electricity), uninterruptible electrical power supplies, electric power consumption measuring, monitoring and analyzing machines, electric lamps, electric boilers, electric toothbrushes, electronic sensing apparatus, namely, displacement sensors, visual sensors, image sensors, safety sensors, electric sensors, movement sensors, and proximity sensors, programmable logic controller (PLC); retail services and wholesale services for pregnancy testing

preparation and other pharmaceutical preparations, namely for use in dermatology, namely, preparations for use in treating wounds and burns; retail services and wholesale services for sphygmomanometers, electrocardiographs, body composition monitors, body fat analyzers and monitors, thermometers, massage apparatus and instruments, low frequency electric therapy equipment, namely electric potential generator connected to an alternating power supply and an output terminal which provides the human body with electric potential by touching the human body used to improve sleep, eliminate habitual headache, low frequency magnetic field generators, low frequency pulsed current generators, electrotherapy devices for providing transcutaneous electrical nerve stimulation, inhalers, hearing aid, nebulizers, medical diagnostic equipment, namely MRI diagnostic equipment, ultrasonic equipment, thermometers, heart rate monitors, pedometers, respiratory monitors, stethoscopes, sphygmomanometers and aneroids, radiological medical diagnostic apparatus, X-ray diagnostic machines, ultrasonograph, blood pressure monitors, EMG electrodes, EMG acquisition and analysis software, computers for EMG acquisition, analysis, and EMG system control circuits, diagnostic devices producing images of radioactive tracers, ultrasonic diagnostic machines, medical monitoring equipment, namely for measuring patient cardiac output non-invasively, body fat monitors, body-fat composition monitors, anesthesia monitoring machines, pulse wave monitors, expired-gas monitors, respirometers, vital signs monitors, sensors for monitoring blood glucose level as part of blood glucose meters, heart rate monitors, pulse rate monitors, diabetes monitoring machines, device for recording disturbances while asleep and analyzing one's sleep patterns, for monitoring sleep conditions, and for measuring sleeping time by measuring movement of one's chest, change of position and snore, devices for drawing or sampling blood for purposes of diabetes monitoring, blood glucose monitoring systems including blood glucose meters and test strips sold together as a unit, fetal pulse monitors, heart monitors, computer and video monitors, urine monitors, activity monitors, computer software for monitoring energy expenditure, electric control devices for energy management and other medical equipment and instruments, namely electrocardiographs, phonocardiographs, electroencephalographs, electromyographs, electronystamographs, electromanometers, ultrasonic diagnostic apparatus, ultrashortwave therapeutic apparatus, blankets, body fat analizers, monitors, electrodes, electroencephalographs, electrocardiographs, tubes, heating cushions, inhalers, lasers, peak flow meters, physical exercise apparatus, spirometers, sprayers, traction apparatus, walking aids, thermotherapy apparatus, pulse oximeters, devices for performing vascular testing, oxygen inhalers sold empty, remote data collecting machines for use in sleeping disorder analysis, lancets, hot air vibrators, lasers, vaporizers, cardiovascular profiling devices, sleep analyzers, and test strips for blood analysis; retail services and wholesale services for esthetic massage apparatus and instruments for business purposes; retail services and wholesale services for measuring equipment , namely, tape measures, odometers and pedometers, electric, pressure, motion and temperature meters, arterial blood pressure measuring machines, machines for measuring blood sugar, sphygmomanometers for measuring blood pressure, devices for measuring distance between cars by using laser beam; sensors for measuring incidence of light from outside of car, tachometers, accumulators for hours, and calorimeters, length measuring sensors, distance measuring machines , speed measuring machines for photography, measuring machines for the amount of calorie consumption, pedometers, computer software for measuring, monitoring and analyzing energy expenditure, electric control devices for energy management, electric power consumption measuring machines, medical devices for measuring peak expiratory flow, device for recording disturbances while asleep and analyzing one's sleep patterns, for monitoring sleep conditions, and for measuring sleeping time by measuring movement of one's chest, change of position and snore, cathode-ray tube meters (electrical measuring apparatus utilizing a cathode-ray tubes), electronic blood pressure measuring devices, capacity measuring devices, physical activity measuring device, exercise intensity measuring device, testing apparatus for PCB (printed circuit boards) and sheet, testing apparatus using x-ray CT (computed tomograph) for PCB (printed circuit boards), cardiovascular profiling devices; retail services and wholesale services for backlight for liquid crystal displays; retail services and wholesale services for keys; advertising the goods and services of others; publicity services, namely, promoting the goods and services of others through the publication of trading stamps; conducting marketing studies; providing information on commercial sales; management of hotel business; preparing financial statements; employment agencies; auctioning; import-export agencies; arranging newspaper subscriptions; shorthand services; transcription services, namely, braille transcription, music transcription, phonetic transcription, stenographic transcription, telephone voice message transcription; document reproduction services ; office functions, namely filing documents and magnetic tape; providing technical assistance to others in the operation of data processing equipment, namely, computers, typewriters, teleprinters, programmable logic controllers, electronic sensing apparatus, namely, displacement sensors, visual sensors, image sensors, safety sensors, electric sensors, movement sensors, and proximity sensors; reception services for visitors in buildings; rental of publicity material; rental of typewriters, copying machines and word processors; providing employment information; rental of vending machines; building construction services; consultancy services relating to the construction of buildings; maintenance of building equipment; shipbuilding; repair and maintenance of vessels; aircraft repair and maintenance; repair of bicycles; repair and maintenance of automobiles; repair and maintenance of railway rolling stock; repair and maintenance of motorcycles; repair and maintenance of cinematographic machines and equipment, namely, cinematographic cameras and films; repair and maintenance of loading-unloading machines and equipment, namely, cable cranes , self-travelling cranes, jib cranes, derricks, overhead travelling cranes, tower cranes, gantry cranes , floating cranes unloaders, locomotive cranes, hydraulic conveyors, screw conveyors, chain conveyors, bucket elevators; repair and maintenance of fire alarms; repair and maintenance of air conditioning apparatus; repair and maintenance of burners; repair and maintenance of boilers; pump repair and maintenance; repair and maintenance of freezing machines and equipment, namely freezers, freezing showcases; repair and maintenance of construction equipment; repair and maintenance of electric lighting apparatus; repair and maintenance of power generators; repair and maintenance of laboratory equipment and instruments, namely, air-gas producers, constant temperature incubators, constant humidity incubators, glassware for scientific experiments in laboratories, furnaces for laboratory experiments, gas discharge tubes, electric discharge tubes, cathode-ray tubes, and vacuum discharge tubes; repair and maintenance of firearms; repair and maintenance of printing or bookbinding machines; repair and maintenance of chemical processing machines; repair and maintenance of glassware manufacturing machines; repair and maintenance of fishing machines and instruments, namely, net hauling machines, trawl winches, line haulers; repair and maintenance of metalworking machines and tools; repair and maintenance of shoe making machines; repair and maintenance of industrial furnaces; repair and maintenance of mining machines; repair and maintenance of integrated circuits manufacturing machines and systems; repair and maintenance of semiconductor manufacturing machines and systems; repair and maintenance of food and beverage processing machines; repair and maintenance of machines for lumbering, woodworking, veneer and plywood making; repair and maintenance of textile machines; repair and maintenance of tobacco processing machines; repair and maintenance of painting machines; repair and maintenance of agricultural machines and implements; repair and maintenance of machines for pulp-making, papermaking and paper-working; repair and maintenance of plastic processing machines; repair and maintenance of packaging and wrapping machines; repair and maintenance of sewing machines; repair and maintenance of storage tanks; repair and maintenance of gasoline station equipment; repair and maintenance of mechanical parking systems; repair and maintenance of bicycle parking equipment, namely, parking meters; repair and maintenance of industrial dishwashers; repair and maintenance of electric washing machines for industrial purposes; repair and maintenance of vehicle washing installations; repair and maintenance of vending machines; repair and maintenance of power-driven floor cleaning machines; repair and maintenance of arcade game machines and amusement park rides; repair and maintenance of water pollution control equipment; repair and maintenance of waste compacting machines; repair and maintenance of waste crushing machines; repair and maintenance of diving machines; repair and maintenance of nuclear power plants; repair and maintenance of chemical plants; repair of furniture; umbrella repair; repair and maintenance of musical instruments; safe maintenance and repair; shoe repair; clock and watch repair and maintenance; sharpening of scissors and kitchen knives; installation and repair of locks; repair and maintenance of a gas powered hot water heater; repair and maintenance of non-electric cooking heaters; repair and maintenance of cooking pots and pans; repair and maintenance of signboards; repair of bags and pouches; repair of personal ornaments; repair of toys and dolls; repair of sports equipment; repair of billiard equipment; repair of game machines and equipment, namely, video game machines adapted for use with television receivers only, computer game programs; repair and maintenance of bathtubs; repair of toilet stool units with a washing water squirter; repair of fishing tackle; repair of spectacles; fur care and repair; laundering; pressing of clothing; clothing repair; fluffing of cotton batting for futon; repair of tatami mats; chimney sweeping; cleaning of building exterior surfaces; window cleaning; carpet and rug cleaning; floor polishing; septic tank cleaning; bathtub and bath boiler cleaning; street cleaning; cleaning of storage tanks; disinfecting of telephone handsets; vermin exterminating other than for agriculture, horticulture or forestry; sterilization of medical apparatus and instruments; rental of construction machines; rental of floor cleaning machines; rental of mops; rental of car washing machines; rental of electric washing machines; rental of laundry dryers; rental of spin dryers for clothes; rental of space cooling equipment for household purposes, namely, air conditioners; rental of mining machines; machinery installation; electrical installation services; telecommunication wiring; telephone repair; electroplating; millworking; annealing; metal tempering; hot dipping; processing of cinematographic films; photographic enlarging; photographic printing; photographic film development; bookbinding; assembly and processing of semiconductors, wafers, integrated circuits, printed circuit boards, electronic chips and computer chips; advice on production of energy; laser processing of plastic, ceramic, wood, rubber, paper, stone, leather and metal; operating lotteries; educational and instruction services relating to arts, crafts, sports; providing information on donation of human corpses for medical education; arranging of donation of human corpses for medical education; animal training; plant exhibitions; animal exhibitions; providing electronic publications, non-downloadable in the field of industrial automation, health care, electronic components, automotive electronics, and social systems recorded on computer media; library services; art exhibitions; gardens for public admission; caves for public admission; publication of books; arranging and planning of movies, shows, plays and musical performances; movie showing, movie film production, and movie film distribution; presentation of live show performances, namely, play performances, concert performances, musical performances, magic shows; direction and presentation of plays; presentation of musical performances; production of radio and television programs; production of videotape film in the field of education, culture, entertainment or sports not for movies, television programs, advertising or publicity; directing of radio and television programs; operation of video and audio equipment for production of radio and television programs; organization of sports events and competitions in the field of tennis, football, golf, baseball; rental of film negatives; rental of film positives; rental of toys; organization, arranging and conducting of horse races; organization, arranging and conducting of bicycle races; organization, arranging and conducting of boat races; organization, arranging and conducting of auto races; providing audio and video studio services; providing sports facilities, namely, sports arena facilities, tennis court facilities, golf facilities, gymnastic facilities, skating rink facilities, swimming pool facilities, track and field facilities; providing amusement facilities, namely, internet games, computer games, arcade games, arcade game machines and amusement park rides; operation and management of performance venues for movies, shows plays, music and educational training; booking of seats for shows; rental of cinematographic machines and equipment, namely, cinematographic cameras, cinematographic films; rental of cine-films; rental of musical instruments; rental of sports equipment ; rental of television sets; rental of radio sets; book rental; rental of records or sound-recorded magnetic tapes; rental of amusement arcade games and equipment, namely video game machines adapted for use with television receivers only, computer game programs; rental of game machines and equipment, namely video game machines adapted for use with television receivers only, computer game programs; rental of paintings and calligraphic works; photography; language interpretation; translation; rental of cameras; rental of optical machines and equipment, namely, blank optical disks, optical transceivers, optical transponders, optical transmitters and receivers, optical sensors, optical fiber connectors, optical fiber sensors, optical fiber amplifiers, optical cables , optical signal transceivers, optical devices for endoscopy, optical flex circuits, optical bar code readers, flat-bed optical scanners, optical signal transmitters, (optical amplification systems namely) microscopes, computers for the analysis of flow cytometer signals, optical devices for endoscopy, optical sensing devices, optical fiber cables; providing meteorological information; architectural services; profit survey and analysis services; topographic survey; geological surveys; computer program design, computer system design, industrial design; computer software design, computer programming and maintenance of computer software; testing, inspection and research of pharmaceuticals, cosmetics and foodstuff; research on building construction and city planning; testing and research on prevention of pollution; testing and research on electricity; testing and research on civil engineering; testing, inspection and research on agriculture, livestock breeding and fisheries; testing and research on machines, equipment and instruments namely, programmable logic controllers (PLC) and electronic sensing apparatus, namely, displacement sensors, visual sensors, image sensors, safety sensors, electric sensors, movement sensors, and proximity sensors; agencies for copyright licensing; agencies for social insurances; rental of measuring equipment, namely, tape measures, odometers and pedometers, electric, pressure, motion and temperature meters, arterial blood pressure measuring machines, machines for measuring blood sugar, sphygmomanometers for measuring blood pressure, devices for measuring distance between cars by using laser beam; sensors for measuring incidence of light from outside of car, tachometers, accumulators for hours, and calorimeters, length measuring sensors, distance measuring machines, speed measuring machines for photography, measuring machines for the amount of calorie consumption, pedometers, computer software for measuring, monitoring and analyzing energy expenditure, electric control devices for energy management, electric power consumption measuring machines, medical devices for measuring peak expiratory flow, device for recording disturbances while asleep and analyzing one's sleep patterns, for monitoring sleep conditions, and for measuring sleeping time by measuring movement of one's chest, change of position and snore, cathode-ray tube meters (electrical measuring apparatus utilizing a cathode-ray tubes), electronic blood pressure measuring devices, capacity measuring devices, physical activity measuring device, exercise intensity measuring device, testing apparatus for PCB (printed circuit boards) and sheet, testing apparatus using x-ray CT (computed tomograph) for PCB (printed circuit boards), cardiovascular profiling devices; rental of computers; rental of laboratory equipment and instruments, namely, air-gas producers, constant temperature incubators, constant humidity incubators, glassware for scientific experiments in laboratories, furnaces for laboratory experiments ; rental of drawing instruments; knitting machine rental; rental of sewing machines; rental of ultrasonic diagnostic equipment; rental of cooling equipment, namely, air conditioners; design and development of computer systems; advice on energy saving design in buildings; engineering in the field of energy, construction, communication and environment technology; information technology [

IT] consulting services; beauty salons; hairdressing salons; providing bath houses; garden and flower bed care; garden tree planting; spreading of fertilizers; weed killing; vermin exterminating for agriculture, horticulture or forestry; massage and therapeutic shiatsu massage; chiropractics; moxibustion; treatment for dislocated joints, sprain, bone fractures; acupuncture; medical clinics, medical diagnostic services, medical laboratory services, medical research services, medical testing services; medical examination services; dentistry; preparation and dispensing of medications; dietary and nutrition guidance; animal breeding; veterinary services; rental of potted plants; farming equipment rental; rental of medical equipment; rental of fishing equipment; rental of lawnmowers; providing fashion information; providing information on newspaper articles; matchmaking services; providing facilities for wedding ceremonies; funeral services; providing grave spaces and charnel houses; security guard services; conducting background investigations, surveillance on individuals and businesses; fortune-telling; housework services namely house cleaning and home repair services for individuals; rental of clothing; rental of altars; rental of fire alarms; rental of fire extinguishers; rental of household electrothermic appliances, namely humidifiers, dehumidifiers, electric bath water purifiers for domestic use; rental of pneumatic or hydraulic machines; rental of personal ornaments for wearing.

(2) Business management analysis; business management consultancies; repair and maintenance of optical machines and instruments, namely, blank optical disks, optical transceivers, optical transponders, optical transmitters and receivers, optical sensors, optical fiber connectors, optical fiber sensors, optical fiber amplifiers, optical cables, optical signal transceivers, optical devices for endoscopy, optical flex circuits, optical bar code readers, flat-bed optical scanners, optical signal transmitters, (optical amplification systems namely) microscopes, computers for the analysis of flow cytometer signals, optical devices for endoscopy, optical sensing devices, optical fiber cables; repair and maintenance of photographic machines and equipment, namely, digital cameras and cameras; repair and maintenance of electronic machines and equipment, namely capacitors, electric power generators for indoor use, electric power generators for emergency use, mobile electric power generators, solar cells, photovoltaic solar modules for production of electricity, solar batteries, solar panels for production of electricity, electrical conductors, electrical connection boxes , electrical connectors, distribution blocks for electrical power, electrical transformers, remote electrical igniters, electrical limiters, electrical cables, electrical signal transceivers, electric buzzers, electric circuit closers, electric control panels, electric discharge tubes, electric door openers and closers, electric door bells, signal transmitters, signal receivers, signal encoders and signal decoders, electric regulating machines, electric resistors, PCB relays, plugin relays, solid-state relays, power relays, safety relays, and general purpose relays, electric transformers, electric opening and closing system for car window, electric power generators, electrical control panels, electric switches, electrical terminals, electric resistances, electrical inverters, electric transformers, electric locks, electric theft prevention installations, electric monitoring machines, electrical power supply and, electric control machines for energy management, electrical accumulators, electrical condensers, remote electrical igniters, electric discharge tubes, electric power distribution machines, electrical circuit cards, electrical plugs, electrical sockets, electrical contacts, electrical junctions, electric remote control machines of industrial operations, electric resistors, electric acupuncture instruments, electric encephalographs, electrical inductors, electrical plugs, electrical cables, electric power steering controls, electrical signal transceivers, electric muscle and nerve stimulators and electric pulse generators, electric wheel chairs, electric motors and inverters, electric and electronic controls for regulating the flow and speed of vehicular traffic, electric steam inhalers, electric massagers, electric pulse massagers, electrical control panels (electricity), uninterruptible electrical power supplies, electric power consumption measuring, monitoring and analyzing machines, electric lamps, electric boilers, electric toothbrushes, electronic sensing apparatus, namely, displacement sensors, visual sensors, image sensors, safety sensors, electric

sensors, movement sensors, and proximity sensors, programmable logic controller (PLC); repair and maintenance of telecommunication machines and equipment, namely, mobile telephones, optical transceivers, digital, radio and optical transmitters and receivers, computers, telephones, network servers, smartphones, tablet computers and facsimile machines; repair and maintenance of power distribution and control machines and equipment, namely, power controllers, electrical power distribution blocks, power supplies, power regulators, power relays, power controllers, power switches, detectors for electrical power outage, diagnostic meters for identifying network power, data errors, excessive bandwidth consumption and circuit problems, detectors for electrical power outage, detectors for electric current, power supplies, uninterruptible electrical power supply, alternating-current power supply, voltage stabilized power supply, electric power consumption measuring, monitoring and analyzing machines, remote monitoring and maintenance advice for solar power generating apparatus in the nature of computer hardware, solar power monitoring software, data processing machines, and warning devices, power line conditioners, wattmeters, electricity distribution boards, power conditioners and electricity junction boxes, power converters, electrical power distribution devices, power distribution consoles, electric power distribution machines, electrical power supplies, power supplies, reverse power relays, power factor controllers , electrical power controllers for electrical relays and power generators; repair and maintenance of electric motors; repair and maintenance of measuring and testing machines and instruments, namely, tape measures, odometers and pedometers, electric, pressure, motion and temperature meters, arterial blood pressure measuring machines, machines for measuring blood sugar, sphygmomanometers for measuring blood pressure, devices for measuring distance between cars by using laser beam; sensors for measuring incidence of light from outside of car, tachometers, accumulators for hours, and calorimeters, length measuring sensors, distance measuring machines , speed measuring machines for photography, measuring machines for the amount of calorie consumption, pedometers, computer software for measuring, monitoring and analyzing energy expenditure, electric control devices for energy management, electric power consumption measuring machines, medical devices for measuring peak expiratory flow, device for recording disturbances while asleep and analyzing one's sleep patterns, for monitoring sleep conditions, and for measuring sleeping time by measuring movement of one's chest, change of position and snore, cathode-ray tube meters (electrical measuring apparatus utilizing a cathode-ray tubes), electronic blood pressure measuring devices, capacity measuring devices, physical activity measuring device, exercise intensity measuring device], testing apparatus for PCB (printed circuit boards) and sheet, testing apparatus using x-ray CT (computed tomograph) for PCB (printed circuit boards), cardiovascular profiling devices; repair and maintenance of medical machines and equipment, namely, sphygmomanometers, electrocardiographs, body composition monitors, body fat analyzers and monitors, thermometers, massage apparatus and instruments, low frequency electric therapy equipment, namely electric potential generator connected to an alternating power supply and an output terminal which provides the human body with electric potential by touching the human body used to improve sleep, eliminate habitual headache, low frequency magnetic field generators, low frequency pulsed current generators, electrotherapy devices for providing transcutaneous electrical nerve stimulation, inhalers, hearing aid, nebulizers, medical diagnostic equipment, namely MRI diagnostic equipment, ultrasonic equipment, thermometers, heart rate monitors, pedometers, respiratory monitors, stethoscopes, sphygmomanometers and aneroids, radiological medical diagnostic apparatus, X-ray diagnostic machines, ultrasonograph, blood pressure monitors, EMG electrodes, EMG acquisition and analysis software, computers for EMG acquisition, analysis, and EMG system control circuits, diagnostic devices producing images of radioactive tracers, ultrasonic diagnostic machines, medical monitoring equipment, namely for measuring patient cardiac output non-invasively, body fat monitors, body-fat composition monitors, anesthesia monitoring machines, pulse wave monitors, expired-gas monitors, respirometers, vital signs monitors, sensors for monitoring blood glucose level as part of blood glucose meters, heart rate monitors, pulse rate monitors, diabetes monitoring imachines, device for recording disturbances while asleep and analyzing one's sleep patterns, for monitoring sleep conditions, and for measuring sleeping time by measuring movement of one's chest, change of position and snore, devices for drawing or sampling blood for purposes of diabetes monitoring, blood glucose monitoring systems including blood glucose meters and test strips sold together as a unit, fetal pulse monitors, heart monitors, computer and video monitors, urine monitors, activity monitors, computer software for monitoring energy expenditure, electric control devices for energy management and other medical equipment and instruments, namely electrocardiographs, phonocardiographs, electroencephalographs, electromyographs, electronystamographs, electromanometers, ultrasonic diagnostic apparatus, ultrashortwave therapeutic apparatus, blankets, body fat analyzers, monitors, electrodes, electroencephalographs, electrocardiographs, tubes, heating cushions, inhalers, lasers, peak flow meters, physical exercise apparatus, spirometers, sprayers, traction apparatus, walking aids, thermotherapy apparatus, pulse oximeters, devices for performing vascular testing, oxygen inhalers sold empty, remote data collecting machines for use in sleeping disorder analysis, lancets, hot air vibrators, lasers, vaporizers, cardiovascular profiling devices, sleep analyzers, and test strips for blood analysis; arranging, conducting and organization of seminars in the field of industrial automation, health care, electronic components, automotive electronics, and social systems recorded on computer media; technological advice relating to computers, automobiles and industrial machines; providing computer software to others for processing digital images and modifying settings of programmable logic controller (PLC); providing medical information; repair and maintenance of computers.

(3) Management of electronic data files performed by use of communication networks; consultancy in the field of energy-saving; energy auditing; technical advice in the field of energy saving and energy efficiency; advice on health management; remote monitoring of facilities; advice on crime prevention; advice on guarding of facilities; remote monitoring of electricity usage.

EXTENDING HUMAN SENSES

Trademark Description
About Us Based in UBC Vancouver, VEGAVIS is a technology startup developing advanced monitoring and surveillance equipment for both consumer & industrial sectors. Human Senses - Umwelt Umwelt is a German term referring to world as it is experienced by a particular organ. Human beings, in general, have five sense organs that take information and transfer it to brain to be processed. This mechanism is the basis of humans understanding of the world. The accuracy of the processed information relies heavily on the amount and quality of the intake information. Our Products An extension in functionality of the sense organs will enable people to better interact with various objects they deal with in their daily lives. At VEGAVIS, we design and develop intuitive equipment that extend human senses and enable people to have a greater understanding of the world which eventually leads to better life experiences. VEGA Mission Our mission is to provide people with a wider view and a better awareness of their surroundings. We are currently developing products for intuitive ground-based aerial imaging equipment to help people see things from a different perspective and survey the out of reach areas at the most convenient way. VEGA Vision Our vision is to extend human senses by developing elegant technology products.
